Subject: ISACA Germany: Call for Papers, new podcast, events, seminars

Dear All,

We are pleased to introduce our first scholarship recipient. Ms **Somaye Hoseinpur** (see picture) has received USD 5,000 and a career-enhancing package to support her studies under the joint scholarship programme of our chapter and ISACA's One In Tech Foundation. We are glad to be able to help Ms Hoseinpur achieve her professional goals and wish her all the best and success in her future career and life.

"As a female from the middle east, I have faced different obstacles throughout my study. After being forced to resign from my job because of not wearing an appropriate Hijab, I was successful in finishing my bachelor's and applying to European universities. This scholarship will allow me to pursue the education I need to achieve my dream of owning a female-led digital business in AI and Cybersecurity. I am hoping to be an entrepreneur in my home country and a voice for underrepresented people in STEM programs."
- Somaye Hoseinpur -

COOPERATION

For some years now, there has been a partnership between the PMI Germany Chapter e. V. and the ISACA Germany Chapter e. V. This also offers members of both associations the possibility of mutual cooperation in our 14 ISACA expert groups as well as in the Communities of Practice (CoPs) of the PMI Germany Chapter e. V. If members are interested in cooperation, they can contact the contact persons of the working groups directly.

We also want to cooperate more on the level of mutual events. The respective members have already had the opportunity to participate in the events of both associations at membership conditions for some time. Click here for the **event calendar** of the PMI Germany Chapter e.V.

EVENTS

Innovation & Tech Talk Online Event

The Innovation & Tech Talk Expert Group invites all members and interested parties to the Tech Talk **on 23 February, 2023** from 11 am to 12 pm (CEST) on the following topic: **3rd Party Reporting und ISO/IEC 27001 - An approach to linkage**

In this presentation, Michael Burkhardt and Sabine Riederer will go into more detail on the presentation of a possible approach how control activities for a third-party certification such as SOC 2 or also ISAE 3402 can be derived from requirement standards, such as ISO/IEC 27001, and vice versa.

You will receive **1 CPE** for participating. Further **details** about the event and the **link for registration** can be found here.
