### EVENTS

#### Regional ISACA regulars' table

Our next regulars' table will take place on **28 June 2023**, starting at 5 pm in **Weinheim**, at the premises of suhling management consulting (Hauptstraße 128, 69469 Weinheim). The maximum number of participants is limited to 10. After a lecture by Mr. Peter Suhling on the topic of "**Occupational health and safety compliance - risks and opportunities**", you will have the opportunity to

exchange ideas among yourselves on audit topics and to round off the evening in a nearby pub.

You will receive **1 CPE** for attending. For more information and to **register**, click [here](#).

## Focus Event on 6 July 2023 (hybrid event)

The ISACA Germany Chapter invites you to a joint focus event with Deutsche Telekom on **6 July 2023** from 18:00 to 20:00. The event will take place at the headquarters of Deutsche Telekom AG in **Bonn**. **Online participation** is also possible.

After the following presentations, there will be an opportunity to round off the evening in a nearby pub:

- Skill Management in Audit - Digitalised Skill Management and Modern Skill Set as a Critical Success Factor for Auditing by Patrick Beyer (Vice President Advanced IT & Technology Audits, Deutsche Telekom AG).
- BSI presentation on IS auditing by Matthias Becker (Penetration testing and IS auditing, Federal Office for Information Security)

You will receive **2 CPEs** for attending. Further information and the possibility to **register** can be found [here](#).

## PARTNER EVENTS

### ISACA Austria Chapter - Trend Talk ChatGPT and AI

Instead of our monthly Innovation & Tech Talk event, together with the ISACA Austria Chapter, we invite all members to an **online Trend Talk** on "**ChatGPT and Artificial Intelligence - Strengths and Weaknesses, Challenges and Limitations - a first classification of where the journey is heading!**" for **25 May 2023** from 17:00 to 21:00.

Everyone is currently talking about OpenAI's revolutionary new chatbot; called ChatGPT. GPT is the abbreviation for "Generative Pre-trained Transformer". ChatGPT uses artificial intelligence to understand human speech to generate a response similar to human speech. ChatGPT can be used for almost anything imaginable, both positive and negative. In the course of the TrendTalk, the speakers will try to give first answers to the strengths and weaknesses of ChatGPT as well as to existing challenges and possible limits of artificial intelligence.

You will receive **3 CPEs** for participating.

Please register for the event at this [registration link](#). Click here for the [event flyer](#) with the detailed programme.

### SAVE THE DATE - ISACA Milan online event on Artificial Intelligence

ISACA Milan Chapter invites all ISACA members and other interested persons to a bilingual online event via Zoom on the topic of "**Artificial Intelligence**" for **June 13, 2023**, starting at 2:00 pm. Presentations will be given in **Italian and German** and simultaneously translated into the other language. **CPEs** will be awarded for participation.

The event is still in preparation. Reserve the date already today. More information will be available soon on our [website](#).
